

## Döcke PIE Ridge Vent for Bitumen Shingles

### 1. Product description and usage.

Döcke PIE Ridge Vent is the main ventilation element for bitumen shingle roofing that allows warm and humid air to escape from attic and roof air space. It is used on sloped roof, installed along the entire length of horizontal peak. The color of the product is black. The clips (8 on each side) hold side ventilation grids. If necessary, grids can be removed in order to install filters, which are not included in a standard set.

#### Appearance and main parts of the product

### 2. Geometric parameters.

No	Indicators description, units measurements	Value
1	Length, mm	1 000
2	Width, mm	330
3	Height, mm	30
4	Minimum application angle, deg	12

#### The geometric dimensions (mm) of the product and the final view with applied Ridge Shingle Döcke PIE

### 3. Physical and mechanical properties.

No	Indicators description, units measurements	Value
1	Total area of ventilation openings of the product, cm <sup>2</sup>	382
2	Operating temperature range, °C	From -40 to +80
3	Impact resistance at t minus 20 °C	YES
4	UV - Resistance	YES
5	Raw materials	Polypropylene

### 4. Logistics characteristics.

No	Indicators description, units measurements	Value
1	Weight 1 piece, kg	1,01
2	Package weight (gross), kg	13,7
3	Quantity in the package, pcs.	12
4	Packing dimensions, mm	385x350x1050
5	Packing on pallet, pcs.	18
6	Pallet weight (gross), kg	247

### 5. Storage rules.

- Products transportation must be carried out on vehicles with covered or tilt bodies, not shorter than the length of the transported material.
- The product must be stored only in the manufacturer original packaging.
- The product must be stored in conditions that prevent moisture and direct sunlight.
- The product must be stored only in covered rooms with ventilation, at temperatures from -35 °C to +50 °C and relative humidity 50-60%.
- For long-term storage (more than 10 days), it is necessary to use pallets or shelving, while the boxes stacking height should not exceed 1,5 m.
- It is strictly forbidden to store products:
  - without packaging;
  - in direct sunlight;
  - near heating devices (at a distance of less than 1 m).
